

Set up prepaid live TV on your Apple smartphone, tablet or MAC

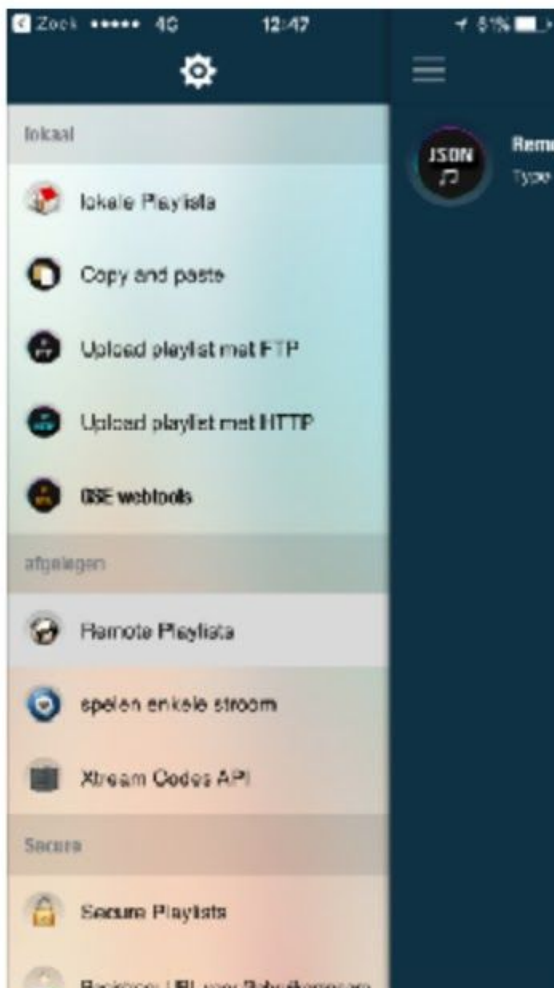

Download the GSE IPTV app from the App Store

NOTE: if you want to stream to a Chromecast, this is only possible with the GSE IPTV PRO app. Also on a MAC you can only watch TV without the "watermark" with the PRO version. This costs a one-time € 4.99.

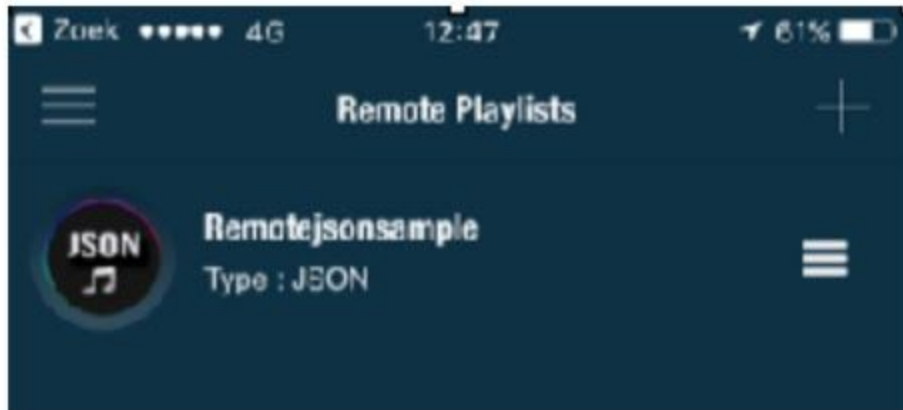

Does casting not work? Then try this app: <https://itunes.apple.com/en/app/tvcast-iptv-on-your-tv/id1067579795?Mt=8a>

Open the GSE IPTV app and follow these steps:

1. Press on "Remote Playlists"

2. Press the plus sign “+”

3. Press on "Add M3U"

4. Press on "Do not show again"

5. Enter "live TV" in the playlist name

6. For the playlist link, enter the EXACT link that you have received from us (e.g. <http://watchiptv.eu.stream.....>) incl. All correct uppercase and lowercase letters.

7. Click on "add" and click on "live TV" in the next screen

8. You will now see all channels sorted by country. For example, press "Netherlands" and press a channel followed by "Play".

N.B. From now on you will find all channels under "Remote Playlist" - "live TV" Setting up prepaid live TV on your Apple smartphone, tablet or MAC

Enjoy watching!
